FOR ROOFING.

The subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders for years, to discover an article fer roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a permanent fixtore. As yet, bothing has been attained without costing more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in changeable climates, that they become useless, unless being repaired at great ex-Factors, take Notice.
